Trivia Whiz

A Bunch of Grape Facts

Plump and portable, grapes are a healthy grab-and-go snack and a favorite ingredient in jams, jellies and beverages.

Grapes date back to at least 6000 B.C. in the region near the Caspian Sea.

Wild grapes were a part of Native American diets. European settlers introduced cultivated varieties to America in the 1600s.

Botanically classified as a berry, the round fruit comes in a range of colors, including red, green, black, purple, blue, pink and yellow.

Grapes grow on vines in large clusters. On average, there are 75 to 100 grapes in a bunch.

More than 72 million tons of grapes are produced each year worldwide.

Viticulture is the scientific study of grapes.

Labor Day Salute

We often think of Labor Day as the end of summer, but its observance encompasses so much more.

Americans have a long-held tradition of honoring the men and women who make this country work. No matter what kind of work each of us does, we play an important role in our nation's success. Labor Day is set aside to take pride in our work and to salute those who have worked to make our jobs secure. We hope you have a safe and terrific day, and we salute you and thank you for your contribution to our economy and our nation.
